Subject: WalMart banks

Please do not consider granting ANY banking business opportunities to WalMart. This corporation has run over any competitor and is out to take over the world. Do not let them get their fingers into any other pieces of the corporate pie. This move would not be good for America.

WalMart currently pays other companies to process their credit sales. These companies would be put out of business. Local banks would be hurt. On top of that, any banking duties they acquire would eventually be outsourced to another country. This has disaster written all over it. Please do not grant any banking privileges to WalMart.

Sincerely,
Barbara Vogel
Kimball, NE 69145
